## How To Work For God

**work (physics) - wikipedia** - in physics, a force is said to do work if, when acting, there is a displacement of the point of application in the direction of the force. for example, when a ball is held above the ground and then dropped, the work done on the ball as it falls is equal to the weight of the ball (a force) multiplied by the distance to the ground (a displacement). **work | definition of work by merriam-webster** - choose the right synonym for work. noun. work, labor, travail, toil, drudgery, grind mean activity involving effort or exertion. work may imply activity of body, of mind, of a machine, or of a natural force. too tired to do any work labor applies to physical or intellectual work involving great and often strenuous exertion. farmers demanding fair compensation for their labor travail is bookish ...
