
Imagined Futures Hope Risk Uncertainty Critical

renewables global futures report - connecting the dots - i. foreword when ren21 was founded in 2004, the future of renewable energy looked very different than it does today. no one imagined then that in 2016 renewable energy would account for 86% of all new eu power installations; that china **the omega glory - long now** - the omega glory i was reading, in a recent issue of discover, about the clock of the long now. have you heard of this thing? it is going to be a kind of gigantic mechanical computer,
